CHINA ABROAD – INVESTMENT, INTEGRATION, OUTLOOK

NOVEMBER 13, 2015

The slides carry the name of the author and should be cited accordingly. The findings, interpretations, and conclusions expressed in these slides are entirely those of the author.

They do not necessarily represent the views of the International Finance Corporation / World Bank and its affiliated organizations, or those of the Executive Directors of the World Bank or the governments they represent.
Premier Zhou Enlai announced China's eight principles of foreign aid in 1964 while visiting Somalia. The Chinese Government always bases itself on the principle of equality and mutual benefit in providing aid to other countries. It never regards such aid as a kind of unilateral alms but as something mutual. Jan 15, 1964

Contours of One Belt One Road
Silk Road Initiative - One Belt, one Road (OBOR)

- Multi-country strategy interdependencies. OBOR likely to touch 21 countries across Africa, Middle East & Northern Africa, Europe, South Asia, and East Asia.
- Change from Going Out model & enhancing Going West strategy. Reflecting lessons about financing structures, project design, and stakeholders.
- Needs are primarily described as enhancing shared prosperity (West China & Central Asia & Asean) through connectivity - enabling transmission of goods & services – translated as infrastructure investment. Yet OBOR is not only about infrastructure sector investments.

Russia, Kazakhstan, Kyrgyzstan, Uzbekistan, Tajikistan, Turkmenistan, India, Sri Lanka, Bangladesh, Pakistan, Malaysia, Indonesia, Philippines, Cambodia, Thailand, Laos, Myanmar, Vietnam, Iran, Turkey, Kenya (almost 4 bn people. Kenya and Turkmenistan are the only two non AIIB members.
## Some positive impacts if OBOR delivers on ambitious goals

### FOR OBOR COUNTRIES

- Contribute to filling the infrastructure financing gap in ASEAN and other countries along the OBOR
- Favorable lending terms from AIIB and Silk Road Fund potentially diminishing additionality and sustainability goals
- Completed projects could improve connectivity and thus productivity and efficiency and reach to Chinese consumers
- Build on Chinese overcapacity (steel, cement, solar PVs) and create local employment (especially low skill jobs)

### FOR CHINA

- Maintain export growth creating demand for Chinese capital goods and create beachhead for service exports
- Continue 1.7 Trillion Yuan “Western Development” increasing shared prosperity between inland and coastal areas
- Diversify reserves through AIIB/SRF/NDB RMB lending among a basket of currencies used to denominate and settle instruments
- Absorb industrial overcapacity, reform SOEs, and reduce corruption and inefficiencies in Going Out initiative.

Note: In addition to the 57 PFM, Hong Kong, SAR will be part of China delegation for the time being.
The countries on whose behalf the present Agreement is signed agree as follows:
CONSIDERING the importance of regional cooperation to sustain growth and promote economic and social development of the economies in Asia and thereby contribute to regional resilience against potential financial crises and other external shocks in the context of globalization;
ACKNOWLEDGING the significance of infrastructure development in expanding regional connectivity and improving regional integration, thereby promoting economic growth and sustaining social development for the people in Asia, and contributing to global economic dynamism;
REALIZING that the considerable long-term need for financing infrastructure development in Asia will be met more adequately by a partnership among existing multilateral development banks and the Asian Infrastructure Investment Bank (hereinafter referred to as the “Bank”);
CONVINCED that the establishment of the Bank as a multilateral financial institution focused on infrastructure development will help to mobilize much needed additional resources from inside and outside Asia and to remove the financing bottlenecks faced by the individual economies in Asia, and will complement the existing multilateral development banks, to promote sustained and stable growth in Asia;
Article 1 Purpose of the Bank
1. The purpose of the Bank shall be to: (i) foster sustainable economic development, create wealth and improve infrastructure connectivity in Asia by investing in infrastructure and other productive sectors; and (ii) promote regional cooperation and partnership in addressing development challenges by working in close collaboration with other multilateral and bilateral development institutions.

Article 2 Functions
To implement its purpose, the Bank shall have the following functions:
(i) to promote investment in the region of public and private capital for development purposes, in particular for development of infrastructure and other productive sectors;
(ii) to utilize the resources at its disposal for financing such development in the region, including those projects and programs which will contribute most effectively to the harmonious economic growth of the region as a whole and having special regard to the needs of less developed members in the region;
(iii) to encourage private investment in projects, enterprises and activities contributing to economic development in the region, in particular in infrastructure and other productive sectors, and to supplement private investment when private capital is not available on reasonable terms and conditions; and
(iv) to undertake such other activities and provide such other services as may further these functions.

Article 3 Membership
1. Membership in the Bank shall be open to members of the International Bank for Reconstruction and Development or the Asian Development Bank.
**Additional background on AIIB:**

**Summary – AIIB Key facts**

- **BRICS:** all five BRICS countries have joined
- **European Union and Eurozone:** 14 out of 28 EU countries have joined incl. the largest 8 EU economies representing both 90% of GDP of EU and eurozone
- **G20:** 14 out of 19 individual G20 countries have joined (all except US, Japan, Canada, Argentine, Mexico)
- **APEC:** 13 out of 21 individual APEC economics have joined, all except US, Japan, Canada, Mexico, Chile, Peru, Taiwan, Papua New Guinea
- **Islamic Development Bank:** 56 members – AIIB already has one member more, also a large overlap of IsDB members (21 or 76% of voting rights) with AIIB – among the TOP 9 IsDB shareholders, 7 joined AIIB (representing 67% of IsDB voting shares) and among the TOP 15, 11 joined (74% of voting rights)
  - 61% of all 34 non-African members of IsDB joined but only one out of 22 African members (South Africa)
  - This also means that **AIIB has a strong presence in the Middle East Region** (nine members)
  - Could there be a strategic partnership AIIB – IsDB? Roles of Saudi Arabia & Iran (TOP 1 & 3 within IsDB)
- **Sovereign Wealth Funds:** 12 out of the 14 countries with the largest SWF joined AIIB; among them are Norway, China, Saudi Arabia, Qatar, UAE, Kuwait, Singapore; all 12 account for 90% of the TOP 14 (if Canada would be included the figure rises to 98%) – Canada has not applied yet but expressed interest
- **ADB:** all larger regional members have joined except Japan; other regional members that did not join are: Afghanistan, Armenia, Bhutan, Cook Islands, Fiji, Papua New Guinea, Taipei, China, Timor-Leste, Turkmenistan, also none of the ADB Pacific Island members joined (Cook Islands are administered by New Zealand which joined AIIB)
Additional background on AIIB:
AIIB and World and AIIB and EU & Eurozone

AIIB members account for the following shares within the World

- **57% of World GDP** in 2013 (of 80% if US and Japan are excluded)
  - if Canada, Belgium, Columbia join, the shares would be 60% and 85%

- **65%** of World Population in 2013

- **68%** of World Working Age Population in 2013

AIIB and EU & eurozone

- **European Union:** 15 out of 28 members have been accepted (14) or applied (1 more, Hungary, not decided yet) – among the 15 are the 8 largest EU economies and the 5 largest eurozone economies, both accounting for 90% of GDP share of the EU and Eurozone respectively

- EU Countries that are admitted: Germany, United Kingdom, France, Italy, Spain, Netherlands, Sweden, Poland, Austria, Denmark, Finland, Portugal, Luxembourg, Malta

- **eurozone** countries that are admitted:
  Germany, France, Italy, Spain, Netherlands, Austria, Finland, Portugal, Luxembourg, Malta

Exports to members of IsDB Islamic Development Bank

- China largest exporter since at least 2005, US before
- France shows slowest growth rate despite historic ties to many members
- France growth rate of 5% is only slightly above its low average of 4% overall worldwide
- France appears unable anymore to capitalize on its historic ties
- China growth here is above its average (18% vs. 13% worldwide) - same for India (17% vs. 14%)

Additional background on AIIB: AIIB and G77 (Group of 77)

G77 = Group of (most) developing countries – current membership is 134 incl. China
It was established in 1964 by 77 developing countries (hence its name) and the name was not changed despite growing membership that now stands at 134.
http://www.g77.org/doc/members.html

Among its 134 members and the 57 AIIB Asian Infrastructure Investment Bank founding members, there is an overlap of 28 countries. While that number might sound small, these countries account for 79% (!) of the GDP of the entire G77 group of 134 countries. This means the AIIB absorbs also a healthy chunk of the economic might of another key group. If China is excluded then the remaining 27 countries still account for 66% of GDP of all G77 countries excl. China. China accounts for 50% GDP of all joining 28 countries. The entire G77 GDP is a little less than a third of World GDP and 44% of World GDP excl. US and Japan.

Incl. China, out of the 19 largest G77 members in terms of GDP, 14 joined the AIIB including all TOP 5: China, Brazil, India, Indonesia, Saudi Arabia. The remaining nine largest G77 countries that also joined the AIIB are UAE, Thailand, Iran, South Africa, Malaysia, Singapore, Philippines, Egypt, Pakistan.

Note: neither Russia nor other former SU countries are G77 members, incl. these in Central Asia except two: Tajikistan and Turkmenistan of which the former one joined AIIB, too.
Another key overlap with another international organization is the one with the **SCO Shanghai Cooperation Organization** that was founded in 1996.

The SCO holds **60% of the world’s natural gas reserves** if Iran is included (it is an observer). The SCO has also been dubbed the “natural gas OPEC” - unlike the oil OPEC it is anchored by a nuclear power on the supply side (Russia).

SCO was as much an idea of Russia to bring together key energy producers and consumers as it was by China to weave the region together. Unlike OPEC, the SCO includes both energy producers (Russia, Iran, Kazakhstan, Tajikistan) and consumers (China, India, Pakistan). All SCO members joined AIIB and except for one observer (Afghanistan), all observers joined as well. The SCO is a hybrid of energy and security cooperation – the US tried ca 10 years ago to become an observer, that request was rejected.

The US attempted in 1991 to become an observer to the European Union via a seat at the European Commission, the answer was “no” as well

The AIIB includes all members of SCO and the largest 8 members of the EU.

**List of SCO Members and Observers**

All have joined except Afghanistan

AIIB chief reveals global ambitions

SAM NUSSEY, Nikkei staff writer

LONDON -- The China-backed Asian Investment Infrastructure Bank’s global reach could eventually extend as far as Africa and Latin America, the fledgling lender’s president-designate told a conference here Monday.

"AIIB can invest in any country," Jin Liqun said, giving the example of funding for irrigation projects in Australia that could improve Asia’s food security. Even lending to countries such as Egypt, the first African state to join the bank,

On March 31, Jin was in Kazakhstan's largest city, Almaty. Ten minutes before the midnight deadline, applications to join the bank were still coming in, he said. More than 30 countries that missed the deadline are on the waiting list to join, bringing the potential number of members to 80 or 90. Some member countries, which Jin referred to as "sleeping beauties," have yet to ratify the AIIB agreement, with this likely to take until the end of next year. As new countries come on board, China's voting share would decrease, he said, with the country eventually losing its veto power.
